

St Helen's CE Primary School SEND Offer

Mrs Claire Saxton
SENCO

How does the school identify special educational needs?

Teachers and support staff through their experience, training and observations, are able to quickly detect if there is a concern with a child and how they learn. As part of our daily observations, we carry out daily informal assessments and look carefully at how each individual child interacts with others and meeting the targets that have been set for them; this will help us decide if a child is having difficulties or needs additional help and support. We work extremely closely with parents and carers and communication is of paramount importance. We encourage parents to share

information with us and to discuss and raise any concerns they may have as early as possible. We encourage all parents to speak to the class teacher if they have any concerns, as they are your first point of contact. The class teacher can then discuss any concerns with the school Special Educational Needs Coordinator (SENCO), who will be able to contact and work alongside outside agencies to support the child. Parents will be fully informed and involved with all decision making and planning for the needs of their child. Other agencies and referrals will only be made if parents, teachers and the SENCO feel this is necessary.

How will school staff support my child?

Your child's class teacher will take responsibility for the daily provision for your child and will be supported and advised by the school SENCO. The teacher will discuss with you any support that is required, which is additional to and different from what we would offer to children as part of our usual classroom practice. The needs of your child will be clearly identified and form part of a Supporting Me to Learn Plan. Outcomes and targets will be set and reviewed regularly with the child, parents and professionals. If it is identified that there is a need for a specific in-school assessment or involvement from any outside specialist services, the SENCO will then talk to you about this and seek your permission to proceed. Depending on the support and resources needed, your child may be working with support staff who are highly trained in specific special needs areas. Your child may undertake 1:1 work, small group work or close supervision within class. If it is deemed necessary, we will contact the Local Authority for additional funding to provide extra support for your child in class.

How will the curriculum be matched to my child's/young person's needs?

High quality classroom teaching and adjusted plans and resources for individual pupils is the first step in responding to children who may have special needs. We feel it is vital to ensure all children can achieve and succeed in a happy and safe learning environment. We aim to be inclusive in all areas of our curriculum, however from time to time children who require additional support may work on a specifically designed programme of study to help boost their understanding of reading, writing and number work. In these circumstances, your child may work within a smaller group of children. These groups, also called intervention groups, may be run:

- In or outside the classroom;
- By a teacher or a member of support staff who has been trained to run these groups;
- By an external specialist from outside such as a Speech and Language Therapist.

If further specific support is required, it will be requested from the Local Authority through an Education, Health and Care Plan (EHCP). This means that the class teacher and SENCO have identified your child as needing a particularly high level of individual or small group teaching, which cannot be provided for solely from the budget available to the school. Therefore, an assessment of their needs will be requested. Parents are

fully involved in the systems in place for identifying additional needs and are continually informed throughout the process.

How will information be shared with parents?

Parents and teachers may arrange private meetings with or without the SENCO if there is anything urgent or of a private nature to be discussed. In some instances, Class Dojo may be utilised but ideally a face to face conversation is usually more effective.

Children are continually assessed as part of classroom best practice, but they will also be assessed termly both as part of formal assessment and teacher assessments. These results are discussed with all teachers in school and the Senior Leadership Team. Our findings are tracked and monitored closely and this enables us to ensure all children are making good progress. If we have a concern regarding your child's attainment and progress, the class teacher will contact you following these half termly assessments to keep you fully informed.

What specialist services and expertise are available at or accessed by the school?

The SENCO at St Helen's CE Primary School is Mrs Claire Saxton. She is the F2 teacher and a member of the Senior Leadership team.

Mrs C Muirhead is the school governor responsible for SEND and can be contacted via the school office.

We have many experienced support staff who specialise in reading intervention, delivery of phonics, mathematics support, behaviour management, pastoral care and working with children with Autistic (ASD). If we feel that our strategies have not met the needs of a child in our care, we will access specialised skills and support from the Local Authority to help us plan for a child with a specific special educational need. We work alongside Educational Psychologists, special advisory teachers, early years specialists, speech therapists, CAMHS (Child and Adult Mental Health Services) the school nurse and other health professionals.

What training have staff completed to support children and young people with SEND?

We ensure our teaching and support staff have regular opportunities for training based on the needs of the children in the school such as Autism, Positive Handling and Speech and Language Therapy. Staff are enrolled on more individualised training if they are supporting a pupil with a more specific need. Our SENCO has undertaken the National Award for SEN Coordination (NASC). We also network across our own consortium to keep our professional knowledge current and share expertise.

How will my child be included in activities outside the classroom, including school trips?

Risk assessments are carried out for school visits including residential trips and reasonable adjustments will be made when required. Where needed the risk assessment would include a meeting with parents as well as taking account when assessing the needs of all children. On some occasions, an individual member of staff may be assigned to support a small group or individual child if the risk assessment indicates that this is necessary. Health and Safety audits are regularly conducted to ensure that the school provides a safe environment for all pupils.

How accessible is the school environment?

- There is wheelchair access through the KS1 Parents entrance. All classes on the filed side of the building are flat and easily accessible.
- Disabled toilets and changing facilities are available.
- We ensure that the learning environment is as fully accessible and inclusive for all learners as practicable within our resources.

How does the school plan for transition?

We recognise that transitions can be difficult for a child with SEND and take steps to ensure that any transition is as smooth as possible.

If your child is moving to another school:

- We will contact the school SENCO and ensure he/she knows about any special arrangements or support that need to be made for your child.
- We will make sure that all records about your child are transferred as soon as possible.

When moving classes in school:

- Information will be passed on to the new class teacher and in most cases, a planning meeting will take place with the new teacher to discuss your child's strengths and difficulties and the strategies that have been successful. Supporting Me to Learn Plans, MSPs and EHC plans will be shared with the new teacher.
- Where a child has additional support from a member of our support team this will be discussed and planned for in the summer term before transition.

In Nursery/Reception:

- There are induction events for all children joining the Early Years.
- Arrangement of COVID secure home visits.
- Face to face or telephone conversations with private day care providers.
- There may be additional visits for children identified as having SEND and additional meetings will be arranged with parents and other agencies who have been involved with your child, such as Portage/Early Years Teaching and Support Service.

In Year 6:

- The year 6 teacher and/SENCO will discuss the specific needs of your child with the SENCO/Inclusion Manager of their Secondary School.
- The new Schools are invited to attend any review that we hold before your child transfers to them.
- Your child will take part in focused learning about aspects of transition to support their understanding of the changes ahead.
- Your child will visit their new school on several occasions and in some cases staff from the new school will visit your child in this school.

How are the school's resources allocated to meet children's specific needs?

The School Budget received from the Local Authority includes money for supporting pupils with SEND. The senior leadership team and governors decide on the budget for SEND based on the needs of the pupils in the school. The school may receive an additional amount of "top-up" funding for pupils with higher level needs. The school will use its SEND funding in the most appropriate way to support your child. This support may include some individual or small group work with a member of the team as well as a range of other support strategies. SEND funding may also be used to purchase specialist equipment or support from other specialist support agencies etc.

There are regular meetings to monitor the impact of interventions and SEND provision and the Governing body is kept informed of funding decisions.

How is the decision made about what type of and how much support my child will receive?

Each child is assessed individually according to the SEN Code of Practice and Local Authority guidance and a personalised support programme will be developed.

There will be regular meetings between the class teacher and the SENCO where we look closely at the provisions that have been in place and their effectiveness and impact on children's learning.

Additional assessments from external services, such as Education Psychologists help us decide what type of support and resources are needed.
