

**Information about how equipment and facilities to support children and young people with special educational needs will be secured.**

Equipment for our children is bought with consultation from external agencies. On occasions, some equipment is lent to school for a short term basis. All equipment is used with advice from specialist providers. Please see our auxiliary aids and equipment policy for more information.

As well as involving parents with the provision we provide for their child, we will endeavour to involve children in the process wherever necessary. This starts with talking to the child about what they can do well in school and what support they feel they need. This information can be found on the child's one page profile. We also include the child's views when referring to other services and during annual reviews. Children are always invited to annual reviews to speak or share work with all attending. We will also get their views beforehand and share these with all present at the review.
